To physicians, nurses and medical team involved in the medical care of my brother Robert (Bobby) Gabos.

Please see the document I am submitting which complies with healthcare law to serve as a Healthcare Representative for my brother Bobby. Please incorporate this into the permanent chart of my brother. The cover letter from the lawyer was not required but is included so that you may know I sought the best legal advice, and references to law to make clear my participation as a Healthcare Representative for Bobby. This will allow me to receive information from you, participate in the decision making process, and consent. I've included the document requesting your acknowledgment of the status which is in accordance with Pennsylvania state law so that we can communicate and act on Bobby's behalf in the best manner possible. I will share establishing this role with my family in accordance with state law. Other members of my family may wish to do the same.
I am grateful for the care that you give Bobby. I look forward to being part of the team to assist with his complex problems.
